
SALDOURO
Horizon

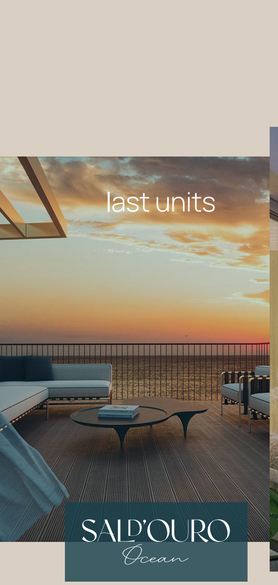

WHERE OCEAN MEETS SERENITY

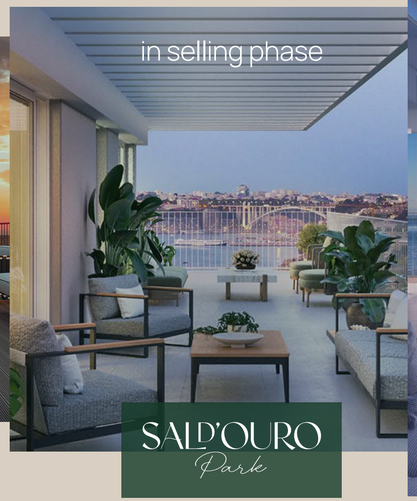

Nestled in the unique zone of Gaia-Foz, Sal D'Ouro Horizon is more than just a place to live; it's a harbor of beauty and serenity with the ocean right at your doorstep.

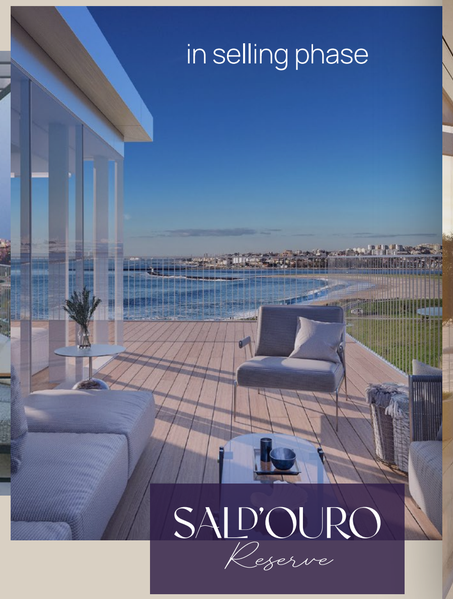

Imagine waking up to the gentle sound of waves and the fresh ocean breeze that stimulates your senses daily. This is the lifestyle that Sal D'Ouro Horizon offers, bringing the best of coastline living within easy reach.

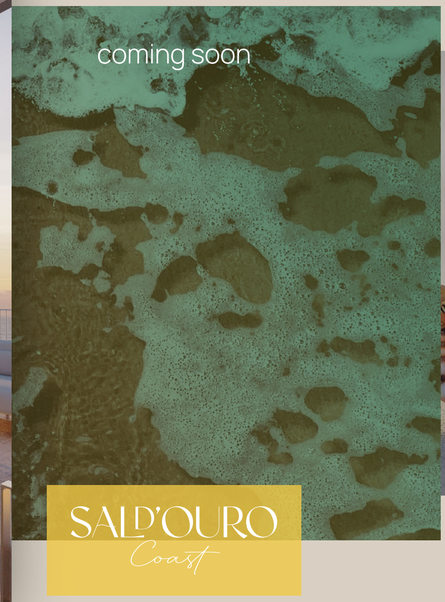

SALD'OURO *Collection*

SIX BUILDINGS, ENDLESS ELEGANCE

SAL D'OURO
Horizon

Following the success of the first 3 buildings of Sal D'Ouro Collection, Sal D'Ouro Horizon is the 4th stage of this prestigious neighborhood.

Developed by Taga Urbanic, this collection of 6 premium buildings emphasis the commitment in setting the standard for high quality living.

SHINING THROUGH THE BEAUTY OF COASTAL LIVING

UNMATCHED LOCATION

Sal D'Ouro Horizon stands out for its closeness to the Atlantic Ocean. Residents will be just a short stroll away from the beaches, allowing morning jogs along the shore, and evenings spent watching the sunset over the water.

The nearby beaches, such as Lavadores, Salgueiros, and Madalena, as well as the nature reserve and the marina provide perfect spots for relaxation and various water sports.

Despite its serene environment, Sal D'Ouro Horizon is conveniently located with quick access to Porto and Gaia city center, the largest cities in the north region.

From Horizon, all main places in both cities are effortlessly accessible in less than 15 minutes' drive.

The development is thoughtfully designed to blend seamlessly with its natural surroundings.

The proximity to both the ocean and the Douro River offers a unique dual waterfront experience.

The nearby S. Paio Park and the Natural Reserve of Douro Estuary provide ample green spaces and leisure areas for residents to enjoy nature at its finest.

DESIGNED FOR SOPHISTICATED RESIDENTS

The building includes 46 apartments with glass facades that spread sunlight all over the house.

Taga Urbanic's signature glass facade purposefully takes advantage of Gaia's rich solar exposure.

dst domingos da silva teixeira

DST is an engineering and construction company founded in the 1940s by Domingos da Silva Teixeira.

It presents integrated and innovative solutions for major global challenges in various specialties: industry, commerce, building, urbanization, water and solid waste treatment plants, water collection and distribution systems, sanitation systems, irrigation systems, gas pipelines, hydro plants, solar photovoltaic parks, wind farms, telecommunications networks, electrification, railroads, highways, among others.

It has two industrial complexes, one in Braga, at the headquarters of the group it integrates, the dstgroup, and another in Seixal.

To support and respond to the demands of the international market, it has two branches, one in France and the other in Angola.

With more than 600 employees, it assumes its business vision to be recognizably fair and to drive trends in the poetics of building the future.

VENTURA
+PARTNERS

Ventura + Partners is a company dedicated to the development of architecture, urbanism, and design projects, founded in 1994 by Manuel Ventura.

Over the last 29 years, it has been developing projects of different scales and in the most diverse architecture segments, such as business, residential, hospital, industrial, health, commercial, renovation, and urban space.

Combining solid experience with research and continuous innovation, its mission is to improve people's lives through architecture, creating integrated and sustainable solutions that allow meaningful interactions between them and the space that surrounds them.

With offices in Portugal, the United States of America, Spain, and France, and projects in more than a dozen countries, V+P currently employs around 150 people worldwide.
